

# GROUND CARE

EQUIPMENT CATALOGUE

Everything for experienced  
and professional gardeners

## INTRODUCTION

We have everything you need for a perfect garden – whether you are an everyday or expert home gardener or a groundcare and turf care professional

### EXPERT RANGES:-

**Lawnflite** from petrol mowers to ride on tractors, from spreaders and trailers to scarifiers we have a wide range for the everyday and expert home gardener.

**Agri-Fab**® lawn products are designed for homeowners who want a beautiful lawn. The quality, time saving products including spreaders, dethatchers and trailers, will ensure you get the most out of your lawn tractor.

**Mantis**' range of tillers will help you grow great gardens and keep your lawns looking their best.

**GTM's** range of compact and powerful wood chippers are designed to offer a portable option for chipping branches and crops – perfect for tree care, landscaping, forestry and garden maintenance for expert gardeners and professionals.

### PROFESSIONAL RANGES:-

**Lawnflite PRO's** range of lawnmowers and roller mowers are built to professional specifications with shaft driven gear boxes, heavy duty alloy decks and sealed roller bearings.

**Little Wonder** a range of landscaping debris management equipment including vacuums, blowers and brushcutters.

**Classten** professional turf care equipment includes aerators, overseeders, sod cutters and turf rakes all with productivity-enhancing features to help professionals complete more projects quickly and easily to increase profit.

## OPTIMA PETROL MOWERS

The Optima range of lawnmowers are manufactured to suit expert gardeners who want quality, style and additional features at affordable prices.

With cutting widths ranging from 46cm / 18" to 53cm / 21" we can offer you the right mower to keep your lawn looking beautiful.

All models have easy to operate single lever height adjustment with settings from 28mm to a maximum of 92mm. The higher settings allow the machine to cope with longer grass on uneven ground.

Optima lawnmowers are powered by Honda and Briggs & Stratton engines. These engines offer high power with low fuel consumption, low emissions and low noise and are renowned for quality, easy starting and long life.

### KEY BENEFITS

- 1 Easy mowing on uneven lawns thanks to power drive and high rear wheels
- 2 Choose between bagging or discharge of the clippings
- 3 Mulch kit included as standard
- 4 Powerful engines

**2 YEARS WARRANTY\***

\*2 years for domestic providing the machine is serviced by the supplying dealer.

## ROLLER MOWERS

The NEW Lawnflite range of roller mowers enhance the mowing experience whilst delivering the perfect traditional striped finish.

The comfort handles and rear roller makes manoeuvring around the lawn a pleasure, whilst the self-propelled drive takes the effort out. The central height adjustment lever has 5 cutting height settings from 25mm up to 76mm and a large 60 litre grass bag with bag full indicator.

The range has been developed with cutting performance and comfort at the heart of the lawn mower.

All models in the roller range come complete with the reassurance of a two year domestic warranty.

### KEY BENEFITS

- 1 Large 60 ltr grass bag
- 2 Comfort handle
- 3 Powerful Loncin engines
- 4 Steel deck with washport and metal blade
- 5 Split rear roller

**LONCIN**

**WARRANTY\***

\*2 years for domestic providing the machine is serviced by the supplying dealer.

**Loncin**

2-in-1

1200m<sup>2</sup>

Model	LRM19PDR
Cutting width	48 cm / 19"

Drive	Split rear roller
Deck material	Steel
Start	Electric
Speed	Self propelled / 4 speed propulsion
Grass bag (approx.)	60 ltr, soft bag
Cutting height	25-76 mm

## SCYTHE MOWER

With a working width of 87cm / 34" and a powerful Briggs & Stratton engine, the scythe field mower is the ideal mower for long grass, meadows and paddocks. Optional dozer blade is available for snow clearing and moving soil, making the scythe field mower a valuable helper throughout the year.

### KEY BENEFITS

- 1 Non clogging universal knife bar with hardened knife blades
- 2 Handle adjustable to suit height of operator
- 3 87cm / 34" cutting width with adjustable skid plates and side bumper
- 4 Pneumatic wheels

Model	BM87-35
Cutting width	87 cm / 34"
Engine	B&S OHV 450 E Series, 125 cc
Rated power (kW/min <sup>-1</sup> )	1.7 / 3,100
Drive	Standard
Cutting system	Universal sickle bar with 4 bar guides
Start	Pull
Height adjustment	10 - 30 mm
Handle	Foldable
Fuel capacity	0.8 ltr
Chassis	Steel
Wheels	13" x 5" x 6", pneumatic
Weight (approx.)	53 kg
LpA/LwA/LwAg (dB)	86 / 98 / 99

## MOWERS FOR PROFESSIONALS

Built to professional specifications, with shaft driven gear boxes, heavy duty alloy decks, sealed roller bearings and strong handles, the Lawnflite Pro range offers a machine to suit all applications.

For that fine lawn finish, the 448HR and 553HRS roller drive models are single speed with full width steel rollers producing a pronounced stripe on your lawn. They are quiet in operation, have fan assisted collection and a blade brake clutch which means you don't have to re-start the engine when emptying the grassbag. The 553HRS-PROHS sports a high speed gear to make short work of long lawns, 18% faster than the standard model 553HRS.

The top of the range 553HRSP-HST is a hydrostatic roller lawn mower which is 50% faster than the 553HRS-PROHS.

The four models in the wheeled range have all the features and benefits of the Lawnflite Pro roller mowers. The 448HW, 553HWS and 553HWS-PRO have 2 speed shaft drive gearboxes giving selectable speed to suit differing conditions.

The Pro models also offer additional features for the professional user including a front mounted bumper, strong handle tubes of 25mm plus an additional handle support bracket, a steel deck liner and on the wheeled models, 23cm / 9" alloy twin bearing wheels. The 553HWSP-HST has the additional benefit of Hydrostatic drive.

### KEY BENEFITS

- 1 Heavy duty alloy decks built for professional use
- 2 Shaft driven gearbox offers extra durability
- 3 Blade brake clutch stops the blade turning when emptying the grass bag
- 4 Roller mower options provide the fine traditional striped finish
- 5 Large heavy duty 70 or 75 litre fabric grass bag enables longer mowing time
- 6 Quiet operation with fan assisted collection
- 7 Mulch kit and deflector available as accessories

### WARRANTY\*\*

\*12 months commercial warranty. 2 years for domestic use providing the machine is serviced by the supplying dealer. 90 days when sold and used for hire.

## SMART MINI-RIDERS

Our Smart mini-riders provide all the benefits of a lawn tractor in a more compact size. They are easy to operate, have an attractive design and are really versatile: they can bag, discharge or mulch grass clippings (optional kits may be required).

They are ideal for gardens where the use of a tractor is restricted by flowerbeds, bushes or corners.

The step through frame makes getting on and off easy and the choice of transmissions delivers a smooth and comfortable ride. After use they can be stored away easily.

### KEY BENEFITS

- 1 Laterally displaced deck allows mowing close to edges
- 2 Space saving storage thanks to small dimensions
- 3 Large grass catcher (Standard on MINIRIDER60RDE)
- 4 "Shift-on-the-go" transmatic transmission with 6 speeds
- 5 Step through frame makes getting on and off easy

### OPTIONAL ACCESSORIES

Optional mulch kit to fit model 60SDE.

Optional mulch kit and deflector to fit 60RDE.

## OPTIMA MINI-RIDERS

If you need to cut around a third of an acre up to one acre and are looking for a machine that is well equipped, simple to use and easy to store with small dimensions, then the Optima mini-riders are for you.

These mini-riders combine all the advantages of a mini-rider with the performance of a lawn tractor. The level indicator conveniently allows you to monitor the large 4.9 litre fuel tank at any time. The step-through frame has no pedals or switches to get in the way, making getting on and off the machine safe and easy.

### KEY BENEFITS

- 1 Smooth and powerful MTD engine with convenient electric start
- 2 Six speed transmatic transmission with continuous variable shifting or hydrostatic transmission
- 3 Laterally displaced deck allows mowing close to lawn edges
- 4 Compact design with a small turning radius of only 46cm / 18"
- 5 Step through frame makes getting on and off safe and easy
- 6 200 litre twin bag collector. NOTE: Will require additional high lift bagging blade 742-04058. (Optional on MINIRIDER76SDE)

## SMART LAWN TRACTORS

If you have a large lawn to mow and want the job done as quickly as possible, a Smart lawn tractor is the perfect choice for you, whether you opt for a rear discharge or side discharge model.

Smart lawn tractors are practical, robust and reliable, and with a cutting width of 76cm / 30" to 105cm / 41", they are ideal for areas measuring 1000m<sup>2</sup> to 3000m<sup>2</sup>.

Thanks to the small turning radius of 46cm / 18", mowing around bushes and flowerbeds is safe and simple. For your comfort a step through frame, makes it easy to get on and off, as well as an adjustable seat, headlights and ergonomically designed controls for deck engagement and transmission.

The cutting height can be easily adjusted to five positions between 30mm and 95mm.

### KEY BENEFITS

- 1 Step through frame makes getting on and off easy
- 2 Large grass bag offers the ability to cover large areas in a short time
- 3 Small turning radius of only 46cm / 18"
- 4 Offset deck allows mowing close to the edge
- 5 Floating deck and pivoting front axle enables smooth engagement
- 6 "Direct Collect®" A large turbo fan assister on the RC125, coupled with the heavy duty cutter blade, physically throws and blows grass cuttings, leaves and other debris directly into the large capacity collector.
- 7 Shift-on-the-go with continuous variable shifting.

## OPTIMA LAWN TRACTORS

Comfortable and versatile – you won't have to sacrifice a thing with Optima lawn tractors. With a cutting width of 105cm / 41" and 107cm / 42" they are ideal for mowing large areas. Optima lawn tractors are fitted with a high-performance engine, guaranteeing long service life, as well as a low-maintenance robust hydrostatic transmission as standard for a smooth and comfortable ride.

The forward-folding and removable hood gives easy access for maintenance work at any time. The floating deck adapts to uneven ground on rough terrains and can be cleaned with the utmost ease and convenience, thanks to the deck wash nozzle. Useful accessories such as a dozer blade, lawn sweeper and spreader attachments mean that a wide range of home and garden jobs can be completed more quickly and easily all year round.

### KEY BENEFITS

- 1 Powerful and quiet MTD engine
- 2 Small turning radius of only 46cm / 18"
- 3 Deck wash nozzle makes for easy deck cleaning
- 4 Step through frame makes getting on and off easy
- 5 Floating deck and pivoting front axle enables smooth engagement
- 6 Large grass bag offers the ability to cover large areas in a short time
- 7 Mowing deck with antiscalp wheels to prevent damage to the grass surface
- 8 The LN200H with rear discharge has a grass catcher which is easy to empty from the driver's seat

# TONDU AND LAWNFLITE LAWN TRACTOR PRODUCTS

Our Tondur and Lawnflite range of equipment includes trailers, de-thatchers, spreaders and rollers. To help you get the maximum out of your lawn tractor most products can be towed behind to help with your jobs around the garden.

**TRAILERS** are ideal for loading/unloading soil, gravel and sand

A **DETHATCHER** will remove moss and thatch from your lawn

**SPREADERS** are suitable for distributing fertiliser, grass seed and salt

A **STEEL ROLLER** will help you achieve the traditional green stripes in your lawn

## TRAILERS

### UTILITY STEEL TRAILER LSC500

Ideal for unloading soil, gravel and sand as well as carrying tools, animal feed, landscaping materials and firewood

Removable tailgate and foot pedal release help with loading and unloading and the trailer can easily convert into a flat-bed trailer without the need for tools

Suitable to use with all makes of lawn tractor, it has a capacity of 500lbs and a trailer bed that measure 97 cm x 71.5 cm x 30 cm

### UTILITY STEEL TRAILER LSC1200

Ideal for unloading soil, gravel and sand as well as carrying tools, animal feed, landscaping materials and firewood

Foot pedal release mechanism for easy dumping and can be assembled in 25 minutes

A multi hitch makes it suitable to use with all makes of lawn tractor, it has a capacity of 1200 lbs and a large trailer bed that measure 150 cm x 77.5 cm x 51.6 cm

### T-HANDLE PUSH/TOW POLY TRAILER LPC650

The versatile poly trailer can be used with your lawn tractor as a tow behind trailer or as a hand wheeled trailer with a comfortable T-handle

The one piece poly bed is quiet and resistant to rust with a slanted tail end and foot pedal release mechanism for easy tipping

With a 650 lbs capacity, it's a versatile choice for your garden

### TONDU QUICK ASSEMBLY STEEL TRAILER TSC750

The steel trailer with a capacity of 750 lbs has folding sides and can be assembled in less than 15 minutes. It features a foot pedal release mechanism for easy dumping including a safety lock pin

The trailer bed measure 107 x 70 x 34 cm

A multi hitch makes it suitable to use with all makes of lawn tractor

### TONDU UTILITY POLY TRAILER LPC1200

The poly dump trailer has a quick release tipper latch for its 1200 lbs capacity load

It features a rugged polyethylene bed and all steel durable tilt and pivot frame with a powder coat finish. Sealed ball bearings mean no greasing is required

## DETHATCHER

### 40" TINE DETHATCHER LST40

The LST40 is a 40" /102 cm steel tine dethatcher that used regularly will remove moss and thatch from your lawn to keep it looking its best

It features 20 heat treated steel spring-loaded tines for long life. The whole unit is constructed from steel and features a heavy-duty tray to add weight for extra penetration.

## SPREADERS

### 70 LBS WALK BEHIND SPREADER TPS70

The TPS70 is a 70 lbs walk behind spreader that features a rate setting control on the handle for precise adjustments. With a spread width of 10' - 12' it will help you distribute fertiliser and grass seed

The pneumatic tyres enable this spreader to be easily pushed along the ground and its rain cover ensures materials are kept dry

### 125 LBS WALK BEHIND SPREADER TPS125A

The TPS125 is ideal for medium to large areas, which may be difficult to access. The poly hopper can hold up to 125 lbs / 60 ltr and the spreader plate is rust proof ensuring long life.

The pneumatic tyres enable this spreader to be easily pushed along the ground and its rain cover ensures materials are kept dry. A rate setting control on the handle helps with precise flow adjustments. As with all our spreaders, it is suitable for both fertiliser, seed and ice melt

### 125 LBS TOW SPREADER LTS125

The LTS125 125lb is ideal for medium to large areas. The poly hopper can hold up to 125 lbs / 60 ltr, whilst the spreader plate is rust proof ensuring long life. The pneumatic tyres ensure this spreader can be easily towed behind most lawn tractors with a tow bar and its rain cover keeps everything dry

The flow lever can be easily operated from the driver's seat and can cover 25,000 sq. ft. suitable for use with both fertiliser, seed and ice melt

### 100 LBS WALK BEHIND SALT SPREADER TPSS100

The TPSS100 is a 100 lbs walk behind salt spreader that can also be used for fertiliser and seed. It features a rate setting control, 12" pneumatic tyres, stainless steel parts and a spread width of 10' - 12'.

### 125 LBS WALK BEHIND SALT SPREADER TPSS125

The TPSS125 is a 125lb walk behind salt spreader for fertiliser and seed. With a rate setting control, 14" pneumatic tyres, stainless steel parts and solid linkage.

## ROLLER

### 36" STEEL ROLLER LSR36

The LSR36 heavy duty puncture proof steel roller helps you achieve the traditional green stripe lawn effect as well as packing down new sod, seed and unlevel ground

The easy fill fitting means you can add water or sand easily to adjust the pressure placed on the ground - use less for soft ground and more for hard ground. It can be towed behind most lawn tractors or ride-on mowers.

## AGRI-FAB LAWN TRACTOR PRODUCTS

Agri-Fab® is the largest supplier of tractor accessories in the world. Made in the US, they know what accessories lawn tractor users need.

Agri-Fab® lawn tractor products are designed for homeowners who want a beautiful lawn, yet want the job of lawn care to be quick and easy. Agri-Fab's quality and time-saving products will ensure you get the most out of your lawn tractor, making lawn care easy, year after year.

### SMARTLINK™ SYSTEM

The Agri-Fab SmartLINK™ system is an incredibly innovative system, which allows different tools to be fitted to one main attachment, ideal for fitting on lawn and garden tractors and other ride-on mowers. All of the SmartLINK™ tools are fitted to the master-platform (45-0473 SmartLINK™ Base) via a simple locking-mechanism - no tools required.

The 41" tractor-towed spike aerator (45-0458) achieves thorough soil-penetration and covers a substantial area efficiently.

The Core Aerator (45-0474) penetrates far more deeply than a surface aerator, ensuring water, air and nutrients reach the whole root system. The 6 Aerator plugs are rust-proof for longevity.

When moss and thatch build-up on the surface of the lawn, the supply of nutrients and water is cut off, leaving the grass discoloured and unhealthy. The Tine Dethatcher (45-0457) will loosen and lift the offending growth, allowing the turf to breathe again.

SMARTLINK

#### 45-0473 SmartLINK™ Base Only

Master platform necessary for all attachments  
Switch from one lawn implement to another in seconds without tools  
Durable heavy gauge steel deck and welded drawbar

SMARTLINK

#### 45-0458 41" Aerator Blade

Ten galvanised blades for rustproof durability  
Ideal for use in lightly compacted soil

SMARTLINK

#### 45-0474 53" Core Aerator

Attaches to the SmartLINK™ Master Platform in seconds without tools  
Aerator features 6 rustproof aerator plugs that penetrate deeply  
Durable heavy gauge steel deck

SMARTLINK

#### 45-0457 42" Dethatcher

Attaches to the SmartLINK™ Master Platform in seconds without tools  
Effectively removes thatch build up for a healthier lawn  
20 heat-treated spring tines for durability

**WHY USE AN AERATOR?**

Aeration is the process of inserting holes in the ground which opens up the soil surface to let grass roots get the air and moisture they need for healthy growth. When undertaken regularly, this process will leave you with an enviably lush and green-looking lawn.

- 45-0299 Plug Aerator**
- 48" / 122 cm working width
- 10" / 25 cm x 4" / 10 cm solid wheels
- Up to 3" / 8 cm aeration depth
- Heavy duty steel construction and weight tray
- Single lever transport handle

- 45-0544 Spike Aerator**
- 40" / 102 cm weight tray holds 100 lbs for excellent soil penetration
- 10 galvanised steel spike disks for thorough aeration
- Folding hitch for easy storage
- 12 gauge steel is extremely durable

- 45-0294 Spring Tine Dethatcher**
- 40" / 102 cm working width
- 20 heat treated/spring loaded tines
- 7" / 18 cm x 1.5" / 4 cm wheels
- Single lever transport handle
- Heavy duty tray and steel construction

- 45-0295 Spring Tine Dethatcher**
- 48" / 122 cm working width
- 24 heat treated/spring loaded tines
- 7" / 18 cm x 1.5" / 4 cm wheels
- Single lever transport handle
- Heavy duty tray and steel construction

- 45-0545 Towed Spiker/Seeder**
- Rustproof poly hopper increases product life
- 42" / 107 cm working width
- You can aerate and seed in one pass with this combined design
- 10 galvanised steel spike disks for throughout aeration
- 10" flat free tyres

**WHY USE A SPREADER?**

Using a spreader allows you to have the most accurate and even distribution of seeds and fertilisers, getting the job done more efficiently and quickly. Agri-Fab has a variety of tow and push spreaders with a large range of capacities. Most models include pneumatic tyres for easy manoeuvrability on any surface.

**45-0566 Push Spreader**

50 lbs / 23kg capacity rust-proof poly hopper

Built-in deflector spreads material

Easy-to-use controls helps spread the right amount of material every time

Fold-up kickstand allows to hang on wall for easy storage

10"/25cm poly wheels move over terrain easily and never need air

**45-0526 Push Broadcast Spreader**

110 lbs / 50 kg Broadcast Push Spreader

Polly Hopper and spreader plate are rust proof

17,500 sq ft coverage

Soft grip handles for comfortable movement

Large pneumatic tyres for easy manoeuvrability

Spreader setting recommendations for multiple materials included

**45-0462 Push Broadcast Spreader**

130 lbs / 56 kg hopper capacity

Professional style, easy set controls for precise application

Enclosed commercial grade gear box for smooth rolling and easy maintenance

25,000 sq ft coverage; roughly 1/2 acre

Large pneumatic tyres for easy manoeuvrability

**45-0548 Push Spreader**

130 lbs / 56 kg hopper capacity

Equipped with 13" x 5" turf tread pneumatic tyres

25,000 sq. ft. coverage; approx. 1/2 acre

**45-0530 Towed Broadcast Spreader**

85 lbs / 39 kg hopper capacity

Up to 14,200 sq ft coverage; roughly 3/10 acre

On/off control accessible from tractor

Up to 10 ft spread width for reliable coverage

Pneumatic tyres allow for smooth transport and easy manoeuvrability

**45-0531 Deluxe Broadcast Spreader**

85 lbs / 39 kg hopper capacity provides 14,000 sq ft coverage

Poly hopper and spreader plate are rust proof

Easy to reach flow control lever

Up to 10ft spread width

Spreader setting for multiple materials

**45-0532 85 lb Pro Push Spreader**

85 lbs / 39 kg capacity provides 14,000 sq ft coverage

Poly hopper and spreader plate are rust proof

Up to 10' spread width for reliable coverage

10" pneumatic tyres allow for smooth transport

Direct rod control opens slide gate with precision

Heavy duty on/off control lever

**45-0463 Tow Broadcast Spreader**

130 lbs / 56 kg capacity provides 25,000 sq ft coverage

Professional style, easy set controls for precise application

Enclosed commercial grade gear box for smooth rolling and easy maintenance

Large pneumatic tyres for easy manoeuvrability

**45-0329 ATV Spreader**

175 lbs / 79 kg capacity provides 40,000 sq ft coverage

Large poly hopper and spreader plate are rust proof

10' / 304 cm to 12' / 366 cm spread width

15" / 38 cm x 6" / 15 cm pneumatic turf tyres with ball bearings

Spreader settings for multiple materials

**45-0527 Tow Broadcast Spreader**

110 lbs / 50 kg Broadcast Tow Spreader provides 17,500 sq ft coverage

Smooth powder coated frame

Poly Hopper and spreader plate are rust proof

Large pneumatic tyres for easy manoeuvrability

Spreader setting recommendations for multiple materials included

**45-0288 Tow Drop Spreader**

175 lbs / 59 kg Drop Spreader

Can cover up to 40,000 sq ft roughly 1 acre

Ideal for seeding and the application of granular herbicides

Hopper is made from rust-resistant poly for a longer working-life

Galvanised steel agitator for even more durability

Pneumatic tyres improve manoeuvrability

**WHY USE A ROLLER?**

Tow behind rollers are ideal whether you're looking to bed-in freshly laid turf, level-out mole hills, flatten frost-heaves or pack-down newly sown seed.

**45-0216 Steel Lawn Roller**

48" / 122 cm wide with 24" / 60 cm diameter

Welded seam steel construction for strength and durability

Drum capacity of 910lbs (water)

**45-0267 Push / Tow Roller**

24" / 60 cm wide with 18" / 46 cm diameter

Poly construction for rust proof durability

Drum capacity 250 lbs (water)

Lightweight when empty, for easy transport and storage

Removable fill plug

**45-0268 Tow Roller**

36" / 92 cm wide with 18" / 46 cm diameter

400 lbs / 181 kg weight with water

Less than 50 lbs / 23 kg without water for easy storage and transport

Removable fill plug

Poly drum is rust proof

**45-0269 Tow Roller**

48" / 122 cm wide with 18" / 46 cm diameter

550 lbs / 249 kg weight with water

Less than 60 lbs / 27 kg without water for easy storage and transport

Removable fill plug

Poly drum is rust proof

**WHY USE A SPRAYER?**

Liquid fertilisers, herbicides and pesticides are convenient and effective for large lawn applications. Agri-Fab sprayers are available in two sizes: 15-gallon or 25-gallon. Both models include a hand wand for targeted spraying around trees and bushes, smooth rolling wheels for easy manoeuvrability and are compatible with ride-on lawn mowers from any manufacturer.

- 45-0292 Tow Sprayer**
- 12 volt / 7 amp pump with battery connection wires inc.
- 68 ltr / 15 gallon tank capacity
- 80" / 203 cm spray width using boom
- 15' / 457 cm coiled hose with spray wand
- 10" / 25 cm x 4" / 10 cm solid wheels

- 45-0293 Tow Sprayer**
- 12 volt / 7 amp pump with battery connection wires inc.
- 114 ltr / 25 gallon tank capacity
- 80" / 203 cm spray width using boom
- 15' / 457 cm coiled hose with spray wand
- 13" / 33 cm x 4" / 10 cm pneumatic wheels

**WHY USE A SWEEPER?**

Using a lawn sweeper to clear away leaves, grass clippings and garden debris is quicker and easier on you and your lawn than using a rake.

- 45-0546 Tow Lawn Sweeper**
- Versatile, easily and quickly attaches to all tractors
- Infinite height adjustment
- 26 cu ft bag capacity
- (6) 10" diameter brushes provide more ground contact than other models
- Widest working width in the industry

- 45-0492 Tow Smart Sweeper**
- 44" / 112 cm working width
- One-Button brush height adjustment
- 25 Cu. ft. hopper capacity
- Offset hitch
- Collapsible for easy storage
- Exclusive, patent pending ergonomic dumping mechanism
- Collector can be emptied from the driver seat

- 45-0218 Push Lawn Sweeper**
- 26" / 66 cm working width
- Rust proof and easy to clean
- Infinite height adjustment
- 6.2 cu ft hopper capacity
- 4.5 to 1 brush to wheel turn ratio
- 4 x 10" / 25 cm diameter replaceable brushes
- 10" / 25 cm x 1.75" / 4 cm semi-pneumatic tyres
- Steel tube handle

### WHY USE A TRAILER?

All Agri-Fab trailers are built to last and made to efficiently and easily carry the load. They are practical and sturdy with pneumatic tyres for easy manoeuvrability on any surface. All the trailers are supplied with a universal hitch-pin, compatible with all makes of ride-on mowers and garden tractors.

**45-0554 ATV/UTV Steel Trailer**  
 350lb / 159kg dumping capacity  
 Versatile hitch attaches to ATV/UTV or tractor  
 Trailer bed swivels up to 110° for precise dumping  
 Removable tailgate  
 18" / 45 cm x 9.5" / 24 cm all terrain pneumatic tyres with roller bearings  
 29" / 74cm x 27.75" / 70cm x 9" / 23cm bed size

**45-0552 700lb Utility Poly Trailer**  
 Hold up to 12 cu.ft. (heaped)  
 Universal hitch that attaches to most tractors  
 Trailer bed swivels up to 110° for precise dumping  
 Heavy duty latch system to dump efficiently  
 15" / 38cm x 6" / 15cm turf tread pneumatic tyres for easy manoeuvrability

**45-0553 1000lb Utility Poly Trailer**  
 Hold up to 18 cu.ft. (heaped)  
 Universal hitch that attaches to most tractors  
 Trailer bed swivels up to 110° for precise dumping  
 Heavy duty latch system to dump efficiently  
 16" / 41cm x 6.5" / 16cm turf tread pneumatic tyres for easy manoeuvrability

**45-0555 4 wheel Trailer**  
 1200lb / 544 kg load capacity  
 Converts between tow and pull quickly and easily  
 Heavy duty latch system for efficient dumping  
 13" / 33cm x 4" / 10cm knobby tread tyres to roll over grass

**45-0519 Tow Dump Trailer**  
 800 lbs / 363 kg load capacity  
 Poly bed is quiet and rust proof  
 Foot operated lever release dump mechanism  
 Large turf tyres  
 1" / 2.5 cm diameter axle  
 Di-chromate hardware resist rust  
 Removable tailgate

**45-0303 Tow Utility Dump Trailer**  
 350 lbs / 159 kg load capacity  
 32.5" / 82 cm (W) x 49" / 124 cm (L) x 12" / 30 cm (H) bed  
 Scratch resistant, powder coat paint finish  
 Reinforced tailgate guides for added strength  
 Di-chromate hardware resist rust  
 13" / 33 cm x 4" / 10 cm pneumatic rib tyres  
 Easy single lever release dump mechanism

**45-0101 Tow Utility Dump Trailer**  
 750 lbs / 340 kg load capacity  
 32.5" / 82 cm (W) x 49" / 124 cm (L) x 12" / 30 cm (H) bed  
 Removable tailgate  
 Reinforced tailgate guides for added strength  
 14" / 36 cm x 4" / 10 cm pneumatic rib tyres  
 Easy single lever release dump mechanism  
 Smooth black powder coat paint finish

**45-0533 Tow Trailer**  
 650 lbs / 295 kg load capacity  
 Unloads and dumps heavy materials in one easy trailer motion  
 Durable trailer cleans up easily  
 16" / 37 cm x 4" / 10 cm pneumatic tyres  
 Quick and easy assembly

**45-0345 Push Dump Trailer**  
 750 lbs / 340 kg load capacity  
 Poly bed is quiet and rust proof  
 30.5" / 77 cm (W) x 41" / 105 cm (L) x 11" / 28 cm (H) one piece bed  
 Di-chromate hardware resists rust  
 5/8" / 1.5 cm diameter axle  
 14" / 36 cm x 4" / 10 cm pneumatic rib tyres

# SCARIFIERS

## WHY SCARIFY?

Twice a year - ideally a dry day in spring or autumn - you should free your lawn from moss so it can breathe again. The moss layer is a breeding ground for fungi, it binds moisture and inhibits powerful root growth of your lawn. Lawnflite has a selection of scarifiers, which will fulfil your needs.

## ELECTRIC SCARIFIER

The powerful electric scarifier is lightweight and efficient. An ideal solution for small and medium sized lawns, it comes with a catcher bag and is designed for intuitive handling. The fixed tines take up moss and thatch with ease leaving a healthy lawn ready for growth.

## PETROL SCARIFIERS

With our petrol scarifiers you have a machine with 15 or 16 blades. The working depth can be selected by adjusting a lever mounted on the handle, ensuring you select the correct setting for light scarification, or heavier verticutter applications without requiring the use of tools.

Fixed tines made of special hardened steel are effective at scarifying while the large rear mounted collector catches the raked-out material, making this a one pass operation.

## KEY BENEFITS

- 1 Scarifier shaft with fixed double tines for efficient results
- 2 Additional dethatcher shaft included
- 3 Catcher bag included
- 4 Central tine adjustment
- 5 Fully foldable ergo-handle
- 6 Remote transport position lever

**2 YEARS WARRANTY\***

\*2 years for domestic providing the machine is serviced by the supplying dealer.

## MANTIS – EXPECT BIG THINGS

Mantis tillers and cultivators are designed for performance and power. Mantis introduced the first small tiller nearly 40 years ago and remain at the forefront in providing big results from a mini tiller. The range will help you grow great gardens and keep lawns looking the best. Trusted by over 2 million gardeners they are the best selling small tillers ever.

A full range of attachments including border edge, plough, aerator and planter furrower are also available.

### WHY CHOOSE A MANTIS TILLER?

#### THE LIGHTEST AND MOST POWERFUL TILLER IN THE WORLD

Small but powerful, the Mantis tiller will surprise you with its performance. Thanks to its unique curved tines, it defies roots and stones, reduces clods and turns the soil to create great planting conditions.

#### FAST AND EASY TO USE

With the Mantis tiller you will save a lot of time in the garden. Plus, it's easy to start and with all of the controls at your fingertips, is easy to use.

#### EASY TO HANDLE AND POWERFUL

That's the magic of a Mantis. A compact size that works in the tightest spaces, a light weight tiller that is easy on your arms and back and a 40-year reputation for quality and efficiency.

#### VERSATILE

A Mantis tiller is several tools in one: it digs, hoes and weeds. With the optional attachments, it also breaks up the ground, digs furrows and holes, helps take care of the lawn, edges borders and paths.

#### DESIGNED TO LAST

A Mantis is a long-term investment.

### KEY BENEFITS

- 1 FOLD DOWN HANDLE**  
For convenient storage in the garage or shed
- 2 RETRACTABLE MULTI-POSITION WHEELS**  
3 position wheels are handy for transport. Plus they adjust for controlling cultivating depth or stow conveniently out of the way
- 3 STEEL POWER TROWEL TINES**  
Impressive tilling and weeding performance from 16 sturdy steel power trowel tines
- 4 2 SPEED MOTOR**  
Delivers the right power for the job

## MAKE COMPOST IN 3 EASY STEPS WITH A MANTIS COMPOSTUMBLER

### HOW MANTIS COMPOSTERS WORK

Thanks to the Mantis ComposTumbler's unique design, it's quick and easy to create high-quality fertiliser from your kitchen and garden waste. Our composter models, designed for different household sizes, use the same technology to deliver the best results. Here's how it works.

#### 1. COLLECT ORGANIC WASTE

Simply collect a variety of organic waste materials from your property and garden. Put them in your ComposTumbler composter, close the door, and immediately give the tumbler 5 turns.

#### 2. TUMBLE YOUR COMPOST

Give the tumbler 5 turns every day. No heavy lifting!

#### 3. FINISHED COMPOST IN ONLY A FEW WEEKS!

Open the door and tumble out your finished compost.

## COMPOSTING TIPS

- Be sure the mix of ingredients you put in your tumbler contains wastes high in nitrogen and carbon for a good balance.
- Do not attempt to make compost using any products that have been treated with chemical fertilizers or pest control products.
- If you have bulky items to compost, such as corn cobs, melon rinds, and shrub clippings, be sure to run them through a shredder or chop up the material into smaller pieces before putting them your tumbler. Larger items take longer to break down.

## WHAT YOU CAN COMPOST

You can add almost any organic material to your compost, and in small quantities you're unlikely to upset the balance of 'greens' and 'browns'.

We give you a free guide to composting with your new Mantis ComposTumbler.

These are just a few of the things you can turn into quality fertiliser:

- Fresh Grass Clippings
- Shredded Leaves
- Kitchen Trimmings and Peels from Vegetables and Fruits
- Sawdust
- Garden Throwouts such as dead flowers and plants
- Weeds (Yes! The temperature inside the ComposTumbler gets hot enough to kill the weed seeds!)
- Manure from horses, cows, chickens, rabbits, pigs or sheep. (Do not attempt to compost any wastes from dogs or cats.)
- Black-and-white sections of newspapers
- Egg cartons
- Rotted fruits and vegetables
- Pine Needles
- Coffee Grounds
- Tea Leaves or Tea Bags

# PORTABLE COMPOSTER ROLLS DIRECT TO THE GARDEN

## MAKES COMPOST IN 4 TO 6 WEEKS

The Back Porch ComposTumbler was developed for garden composting. If you have a city property or a very small garden, this little composter was designed just for you. The frame includes two wheels so you can take the compost right to your flower beds and garden areas. You can add to it each day for continuous composting.

Model	CT08001 BACK PORCH COMPOSTUMBLER
Drum capacity	140 litres
Size	37"/94cm H x 31"/79cm W x 26"/66cm D
Drum height	7"/18cm off the ground
Drum materials	Double-wall, high density polyethylene with insulating air cell
Frame	Polyester powder-coated black steel tubing, with two wheels
Drainage	Aerator/drainage unit on the bottom
Air Circulation	Screened vents on each side
Turning	Indented grooves on drum allow grip for turning
Colour	Sage green
Assembly	Some assembly is required

## KEY BENEFITS

- 1** HOLDS UP TO 140 LITRES OF MATERIAL to make plenty of compost for smaller gardens and flower boxes
- 2** TURNING GROOVES let you grip the drum to turn it
- 3** AERATOR/DRAINAGE UNIT on the bottom combined with screened vents on each side allow the proper air intake and the release of excess moisture, without spilled compost
- 4** INSULATED HIGH-DENSITY polyethylene drum lets you compost in cooler weather
- 5** CONVENIENT WHEELS let you take the compost directly to your flower beds and garden areas

# COMPACT COMPOSTUMBLER PERFECT FOR SMALL TO MEDIUM GARDENS

## MAKES COMPOST IN AS LITTLE AS 14 DAYS!

The Compact ComposTumbler was developed in the 1990's specifically for home composting by suburban gardeners and homeowners who garden on smaller properties. This composter has all the same quality and speed of the bigger model, with half the capacity.

Model	CT02001 COMPACT COMPOSTUMBLER
Drum capacity	335 litres
Size	43"109cm H x 42"/107cm W x 33"/84cm D
Drum height	12"/30cm off the ground
Drum materials	Powder-coated galvanised steel, rust-resistant
Frame	Tubular steel with black powder-coated finish
Drainage	Aerator/drainage unit on the door
Air Circulation	Screened vents on the end caps
Turning	Gear-driven handle on frame
Colour	Sage green
Assembly	Composter is delivered in boxes and requires assembly using basic tools

## KEY BENEFITS

- 1** HOLDS UP TO 335 LITRES OF MATERIAL to make plenty of compost for medium size gardens
- 2** CONVENIENT, gear-driven, easy-to-spin handle makes it easy to turn even a fully loaded drum
- 3** AERATION/DRAINAGE UNITS on the door allow the proper air intake for oxygen-hungry bacteria and the release of excess moisture, without spilled compost
- 4** INTERIOR MIXING FINS ensures thorough mixing as you turn the drum. Prevents material from sticking to the sides. Produces faster decomposition
- 5** STURDY, powder-coated galvanised steel wall construction is rust resistant, gives long-lasting use batch after batch

## WHEELED TRIMMER

When the mowing gets rough, you need a machine that meets the tough demands of rough grass where unknown debris may be lurking. The HWLT wheeled trimmer with its dual line cutting system, large wheels, adjustable handle system, will wade through the rough areas.

### KEY BENEFITS

- 1 Powerful Lawnflite engine
- 2 Dual line system
- 3 Adjustable handle
- 4 Large wheels
- 5 Blade engagement safety control

Model	HWLT
Engine	Lawnflite OHV 160 cc, 5.5hp
Cutting width	56 cm / 22"
Cutting height	3.8 cm / 1.5" - 7.6 cm / 13"
Wheel	35 cm / 14"
Handle	Adjustable
Clutch system	Standard
Weight (approx.)	36 kg

## SHREDDER

Cut your garden waste down to size and reduce the number of trips to the local tip. The Lawnflite shredder is available with a petrol engine for larger gardens and when working away from a power source.

The advanced unique self-feeding cutting system reduces down garden debris to a manageable size, producing high volume output without jamming. The large infeed top hopper accepts any shape of branches with or without leaves and a rapid blade changing system allows for quick changes when needed. The cast aluminium cut chamber helps reduce noise and a large capacity mulch catcher collects up to 45 litres in one go.

Designed and built to be user friendly, this shredder will reduce clippings and debris in no time.

### KEY BENEFITS

- 1 Advanced self-feeding cutting system
- 2 Rapid blade changing system
- 3 Large infeed hopper accepts branches with and without leaves
- 4 Reduced running noise from large cast aluminium cut chamber
- 5 Large 45L collection box

## GTM – WOOD CHIPPERS AND TREECARE

Our range of compact and powerful wood chippers are designed to offer a portable option to chipping branches and crops – perfect for tree care, landscaping, forestry and garden maintenance.

Efficient, effective and safe to operate due to their chipping system and unique drum design – a rotor with 2 blades, one counter blade and ejection through a large discharge chute. The system pulls branches up to 12 cm thick into the machine, chips them and ejects clean cut wood chips time after time. The chipped material is ideal to use as mulch or compost.

GTM Professional wood chippers and tree care – for expert gardeners and professionals.

### GTS 600

#### Powerful chipper for private users.

Branches with a diameter up to 5 cm (2") are easily pulled in and chipped. The GTS600 comes with double sharpened blades that last twice as long as regular blades.

The machine has several safety features including restart protection for the user and overload and overheat protection for the motor.

Compact storage mode: the hopper can be put straight up and the output chute can be stored in the hopper.

Model	MSGTS600G
Engine	196 cc Loncin
Branch diameter	5 cm / 2"
Input height	113 cm / 44"
Input dimensions	25 x 25 cm / 9.8" x 9.8"
Output height	81 cm / 32"
Output direction	Rear
Deflector	85° adjustable
Safety items	Rotor blocking system / Emergency button
Wheel diameter	26 cm / 10.2"
Wheels	Plain bearings
Transmission	Direct transmission
Blades	Double sharpened blades
Dimensions (LxWxH)	125 x 57 x 133 cm / 49" x 19.7" x 52.4"
Weight (depends on engine)	68 kg / 150 lbs

**GTS 900**

**Extra wide input area for efficient processing.**

The GTS900 chipper is a powerful machine for professional use in the field of tree maintenance, ground care and forestry. With an extra wide input area - 40 x 28cm (16 x 11") making it suitable for fast and efficient processing of branches up to 8cm (3").

The machine is equipped with a safety button that immediately stops the motor.

Model	MSGTS900G
Engine	302 cc Loncin
Branch diameter	8 cm / 3.1"
Input height	101 cm / 39.8"
Input dimensions	40 x 28 cm / 15.7" x 11"
Output height	138 cm / 54.36"
Output direction	Side
Deflector	80° adjustable
Safety items	Emergency switch
Wheel diameter	39 cm / 15.4"
Wheels	Ball bearings
Transmission	Double V belts
Blades	PRO blades
Dimensions (LxWxH)	150 x 67 x 145 cm / 59.1" x 26.4" x 57.1"
Weight (depends on engine)	140-151 kg / 309 - 333 lbs

**GTS900 COMPO**

**Multifunctional chipper for branches and grass.**

The GTS900C is a multifunctional chipper with two different outputs. The high output is suitable for shredding branches up to 8cm (3"). The low output is suitable for soft materials, such as grasses, hedge shavings or plant debris. The shredded material accelerates the composting process.

Model	MSGTS900COMPO
Engine	302cc Loncin G300FA
Branch diameter	8 cm / 3.1"
Input height	101 cm / 39.8"
Input dimensions	40 x 28 cm / 15.7" x 11"
Output height	High 138cm / 54.36", Low 35cm / 13.8"

## GTS 1300

**Powerful gravity-fed machine for professional use in tree maintenance, ground care and forestry.**

With a maximum height of 150cm (59") and the engine sited under the hopper it is less than 80cm (32") wide making it the most compact chipper in its class.

The GTS1300 wood chipper is light and perfectly balanced so that one person can operate and move the machine safely.

Model	MSGTS1300G15
Engine	420 cc Loncin
Branch diameter	12 cm / 4.4"

## GTS 1300RG

### Powerful but compact tracked wood chipper.

The GTS1300RG wood chipper is equipped with caterpillar tracks to operate on rough and hard to access terrain, suitable for gardens, parks and forestry. The new construction can easily manage steep hills up to 20° incline.

The chassis is specially lowered, making the input height only 10cm (4") higher than the GTS1300 on wheels.

Model	MSGTS1300RG15
Engine	389 cc Loncin
Branch diameter	10 cm / 4"
Input height	125 cm / 49.2"
Input dimensions	34 x 42 cm / 13.4" x 16.5"
Output height	160 cm / 63"

Deflector	85° adjustable
Safety items	Panic bar, safety switches
Wheel diameter	40 cm / 15.7"
Wheels	Ball bearings
Transmission	Double V belts
Blades	PRO blades
Dimensions (LxWxH)	215 x 72 x 170 cm / 84.6" x 28" x 67"
Weight (depends on engine)	345 kg / 760 lbs

## GTS 1300 PTO

### A robust wood chipper, suitable for coupling to a tractor.

The GTS1300PTO wood chipper is suitable for chipping fresh, green wood and can be coupled to a tractor up to 45hp with a 3-point attachment and power take-off. A trailer can be attached to the back of the machine; for wood chips to be blown into directly.

The GTS1300PTO meets the highest safety standards. The safety mechanism is entirely independent of the tractor and works with any tractor.

Model	MSGTS1300P
Engine	PTO
Branch diameter	12 cm / 4.4"
Input height	110 cm / 43.3"
Input dimensions	34 x 42 cm / 13.4" x 16.5"
Output height	155 cm / 61"
Output direction	Adjustable
Deflector	85° adjustable
Safety items	Panic bar, safety switches, rotor locking system
Wheel diameter	40 cm / 15.7"
Wheels	Ball bearings
Transmission	Double V belts
Blades	PRO blades
Dimensions (LxWxH)	90 x 106 x 155 cm / 35.4" x 41.7" x 61"
Weight (depends on engine)	210 kg / 463 lbs

## GTS 1300 WD

### A self-propelled powerful wood chipper for professional use.

The GTS1300WD wood chipper can shred fresh cut wood with a maximum diameter of 10 cm (4") and dry wood of 8 cm (3").

The battery powered (2 x 12 V) self-propelled system has an impressive autonomy of 9.5 kms on flat paved ground and approximately 3 kms on hilly or muddy terrain. The driving system can handle slopes up to 15°.

Steering is easy thanks to the two swivelling wheels that are mounted on a swing axle so the chipper can go through rough and uneven terrain.

Model	MSGTS1300WDG15
Engine	420 cc Loncin
Branch diameter	10 cm / 4"
Input height	103 cm / 41"
Input dimensions	50 x 28 cm / 20" x 11"
Output height	163 cm / 64"
Output direction	Turnable 270°
Deflector	100° adjustable
Safety items	Rotor blocking system, panic bar, safety lever
Transmission	2 speed settings
Blades	Double grinded blades (2x)
Dimensions (LxWxH)	150 x 73 x 163 cm / 59" x 29" x 64"
Weight (depends on engine)	235 kg / 518 lbs

## ELEPHANTS TRUNK HARNESS V2

The GTM Professional Elephants Trunk Harness V2 will help you to trim hedges all day long without muscle strain and double your workspeed.

The comfortable harness is worn like a backpack and reduces the weight of the hedge trimmer by 3 kg (6.5 lbs). The length can be adjusted and is suitable for hedge trimmers from 4.5 to 8 kg (10 - 17.5 lbs).

A clear view and an unlimited work area will help you to work quicker and with greater safety and improved accuracy.

### KEY BENEFITS

- 1 Comfortable harness
- 2 Balancer at the back
- 3 Nylon ball bearings
- 4 Adjustable length
- 5 Clear view without obstacles

<b>Model</b>	<b>MHH01010N2</b>
Length	Adjustable
Bearings	Nylon ball
Harness	Standard
Support	Balancer
Weight	4.5 - 8 kg / 10 - 17.5 lbs

For more information and videos

## RATTLEWEDGE

The GTM Professional Rattlewedge is a patented tool that has been developed by arborists for you – to improve the security and working conditions when you are felling trees or cutting up large pieces of wood. The Rattlewedge can be inserted into the notch made in the wood and tightened up to open up the notch, allowing you to control when and where the tree will fall. The Rattlewedge helps you control the wood without any effort, whether you are in the tree or on the ground.

Made of lightweight aluminium and weighing only 1.4 kg (3 lbs), it can be easily carried up into the tree and the weight of the tree will make the task of felling that much easier and safer.

## LOG SPLITTERS

Log splitters offer a safe and effort-free alternative to chopping up wood with a traditional axe.

Lawnflite offers a range of high quality electric logsplitters. For use in sensitive areas where noise will cause a problem we have electric models with a splitting force of up to 8 tonne. All Lawnflite log splitters are fitted with wheels for transportation and are operated by a 2 handed control system to ensure safe working practice.

Please note - if splitting particularly hard wood, the maximum log size stated may not be applicable.

The LS5220EH-kit and LS72300EH-kit must be used with a stand due to new safety legislation. The stand comes as standard with both machines.

### KEY BENEFITS

- Electric log splitters are quiet and effective
- Splitting force from 5 to 8 tonnes
- Two handed control systems ensure a safe working practice
- Wheels for easy transportation
- Comfortable hand-grips for easier working

## ELECTRIC CHAINSAW

Our high-performance electric chainsaw is ideal for all types of sawing work around the garden which can be done within cord length. Alternatively this versatile machine can be run from a suitable generator. This includes tree trimming and the cutting-down of fruit trees, the building of an arbour in the garden, cutting firewood as well as small wood and branches.

- 1 Low vibration handles
- 2 Lightweight ergonomic design and well balanced construction
- 3 Suitable for a variety of applications from trimming and cutting firewood through to general purpose logging and tree felling

ELECTRIC

Model	ECS180035

Classen are serious about manufacturing cutting-edge, durable and easy-to-use equipment for professional landscapers and homeowners.

The full product line incorporates features that enhance operator comfort and minimise maintenance. It's their way of taking the backache out of lawn care, so you stay productive and profitable.

## AERATORS POWER STEER™ PRO TA25

Transform gruelling muscle-work into simple fatigue-free steering and comfortably move from one lawn or local authority ground to the next with the PRO TA25 Aerator.

Our PRO line offers productivity-enhancing features to help landscapers complete more projects quickly and increase profits. The PRO line's proven designs include the important extras, such as hydrostatic transmissions, anti-vibration grips and power steering.

### KEY BENEFITS

- Tight hole pattern and all-tine propulsion produces more holes for the best quality of core results
- Patented split-drive technology allows power steering through the tines
- Simple controls allow operators to aerate straight, follow curves and turn left or right
- Protective chain guards help keep grass, leaves and cores out of chains and sprockets
- Removable weight and fillable water drum add weight for greater tine penetration in tough soil

#### BEST SUITED FOR:

Landscapers and Turf Care Professionals

#### IDEAL LAWN SIZE:

Large Lawns or Local Authority

Model	TA-25DE AERATOR
Engine	Honda® GX120
Aerating width	24.375"
Aerating depth	Up to 2.75"
BHole pattern	4.06" x 7"
Coverage	32,850 sq. ft. / hr
Tines	(36) 3/4" OD
Holes / ft²	6.5 per sq. ft.
Weight bar	42 lbs removable steel bar
Dimensions (HxWxL)	48.5" x 40.5" x 50"
Dry weight	362 lbs with weight (320 lbs without)

**2-YEAR  
WARRANTY\***

Engines are warrantied separately by manufacturer.  
\*See website for terms & conditions.

## AERATORS STEERABLE COMPACT TA18

The industry's most compact aerator is also the most productive.

Classen equipment is built with the professional in mind with quality components, productivity features and service and maintenance ease.

### KEY BENEFITS

- Best Quality of Core®: Five rows of tines pull 15% more cores per square foot than competitive models
- Steerable tine bank enhances manoeuvrability and eases end of row turning
- Dual front drive wheels provide exceptional balance on hills
- Fold-down handle, removable weights and side lift/tie-down brackets ease transport
- Exclusive tine engagement system greatly reduces the effort required to lower and raise tines
- Honda® GX120 engine achieves the fastest speed in its class, 4.2 mph
- Easy-access drive sprocket and bail result in simple maintenance

**BEST SUITED FOR:**  
Homeowners and Landscapers  
**IDEAL LAWN SIZE:**  
Small to moderate

Model	TA18HE STEERABLE COMPACT
Engine	Honda® GX120
Aerating width	16"
Aerating depth	Up to 3"
Hole pattern	3.4" x 7"
Coverage	29,500 sq. ft. / hr
Tines	(30) 3/4" OD
Holes / ft²	6.5 per sq. ft.
Weight bar	2 x 21.5 lbs removable steel bars
Dimensions (HxWxL)	48" x 27.2" x 46"
Dry weight	257 lbs with weight (214 lbs without)

**2-YEAR  
WARRANTY\***

Engines are warrantied separately by manufacturer.  
\*See website for terms & conditions.

## AERATORS RECIPROCATING RA21

Transform gruelling muscle-work into simple fatigue-free steering and comfortably move from one lawn or local authority ground to the next with the RA21.

The reciprocating tines of the RA21 punch clean holes in tough, hardened soil.

### KEY BENEFITS

- Tines reciprocate at 450 revolutions per minute for exceptional coverage
- Lightweight design makes end of row turning easy
- Fold-down handle for compact transport and storage
- Lightweight, rust-resistant, two-piece hood reduces overall unit noise and allows easy access for maintenance
- Lifting and tie-down handles for easy and safe transportation
- Front and rear tyre scrapes keep tyres free from dirt and allow maximum tine penetration
- Front and rear pneumatic wheels offer better flotation on turf and easier manoeuvrability

#### BEST SUITED FOR:

Landscapers and Turf Care Professionals and homeowners

#### IDEAL LAWN SIZE:

Any size that involves straight-line aerating

Model	RA-21HE RECIPROCATING
Engine	Honda® GX160
Aerating width	16.25"
Aerating depth	Up to 2.75"
Hole pattern	2.6" x 7.5"
Coverage	26,000 sq. ft. / hr
Tines	(8) 5/8" OD
Holes / ft <sup>2</sup>	10 per sq. ft.
Weight bar	N/A
Dimensions (HxWxL)	39" x 31.5" x 64"
Dry weight	261 lbs

**2-YEAR  
WARRANTY\***

Engines are warrantied separately by manufacturer.  
\*See website for terms & conditions.

## AERATOR COMPARISON CHART

Model	PRO TA25
Ideal lawn size	Large lawns, local authorities
Best suited for	Lawndscapers, lawncare professionals, local authorities and golf courses
Aerating width	24.75"
Coverage	32,850 sq. ft. / hr
Hole pattern	4" x 7"
Dry weight	164 lbs / 362 lbs

Model	TA18
Ideal lawn size	Any
Best suited for	Lawndscapers
Aerating width	16"
Coverage	29,500 sq. ft. / hr
Hole pattern	3.4" x 7"
Dry weight	116 lbs / 257 lbs

Model	RA21
Ideal lawn size	Any size involving straight-line aerating
Best suited for	Lawndscapers and homeowners
Aerating width	21"
Coverage	26,000 sq. ft. / hr
Hole pattern	2.6" x 7.5"
Dry weight	118 lbs / 261 lbs

**2-YEAR WARRANTY\***

Engines are warrantied separately by manufacturer.  
\*See website for terms & conditions.

## TURF OVERSEEDERS HYDRO-DRIVE PRO HTS20

Place more seed rows in less time with the self-propelled PRO HTS20 Overseeder. Our industry-best 13 double-bladed shafts spaced 1.5 inches apart provide carpet-like coverage on the bumpiest terrain.

Our PRO line offers productivity-enhancing features to help landscapers complete more projects quickly and increase profits. The PRO line's proven designs include the important extras, such as hydrostatic transmissions, anti-vibration grips and power steering.

### KEY BENEFITS

- **SINGLE-HANDED CONTROL** provides ease of operation in forward and reverse
- **FOLDING HANDLE** means more space is available on your trailer.
- **TURF TREAD FLOTATION TYRES** provide exceptional balance and stability on hills, reduce soil compaction and eliminate tyre ruts
- **SEED DIAL AND ON-BOARD INSTRUCTION CHART** allows operators to set the overseeder for the desired grass seed type, eliminating wasted seed
- **26 HEAT-TREATED MULTI-PURPOSE BLADES** uniquely designed with a cutting edge on both ends of the blade, provide double the blade life
- **40 lbs FLOATING SEED BOX** follows bumpy terrain or locks in place at 10 depth settings for seeding on hills

#### BEST SUITED FOR:

Landscapers and Turf Care Professionals

#### IDEAL LAWN SIZE:

Large or local authorities

Model	HTS-20HE
Engine	Honda® GX270
Transmission	Hydrostatic, Hydro-Gear® T2
Seeding width	20"
Seeding blade	Double edged, heat treated blades, 1.5" spacing
Seedbox capacity	40 lbs
Dimensions (HxWxL)	45" x 31" x 57"
Dimensions (handle folded)	33" x 31" x 45.75"
Dry weight	300 lbs

**2-YEAR  
WARRANTY\***

Engines are warrantied separately by manufacturer.  
\*See website for terms & conditions.

## TURF OVERSEEDER WALK-BEHIND TS20

Seed new lawn, overseed an existing lawn or easily convert the TS20 into a turf rake or vertical cutter for additional turf care projects. The blades feature a cutting edge on both ends, which doubles the blade life.

### KEY BENEFITS

- └ INDUSTRY'S TIGHTEST BLADE PLACEMENT allows for better germination by planting 13 rows per 20" swath
- └ FOLDING HANDLE means easy transportation
- └ 5-POSITION HEIGHT ADJUSTMENT gives optimal depth control
- └ EASY TO REMOVE SEED BOX allows for simple cleaning
- └ TYRE SCRAPES reduce soil build-up
- └ 26 HEAT-TREATED MULTI-PURPOSE BLADES re-reversible and sharpened on all four edges for double the blade life
- └ CONVERTS TO A TURF RAKE or vertical cutter in minutes with optional blade assemblies

**BEST SUITED FOR:**  
Homeowners and Landscapers  
**IDEAL LAWN SIZE:**  
Small to moderate

Model	TS-20HE
Engine	Honda® GX160
Seeding width	20"
Seeding blade	Double edged, heat treated blades, 1.5" spacing
Seedbox capacity	30 lbs
Dimensions (HxWxL)	39.5" x 27" x 51"
Dimensions (handle folded)	29.5" x 27" x 30.5"
Dry weight	150 lbs

## SOD CUTTERS HYDRO-DRIVE PRO HSC18

Maximise productivity for any application big or small with the PRO HSC18 Sod Cutter. Whether you are repositioning or relocating sod or expanding landscaping areas, the hydrostatic drive delivers high productivity with smooth power in both forward and reverse and the industry's fastest transport speed.

Our PRO line offers productivity-enhancing features to help landscapers complete more projects quickly and increase profits. The PRO line's proven designs include the important extras, such as hydrostatic transmissions, anti-vibration grips and power steering.

### KEY BENEFITS

- POWERED FORWARD AND REVERSE with industry-best 4.7 mph transport speed
- INTEGRATED THROTTLE/CLUTCH CONTROL ON HANDLE results in simple operation; releasing the handle puts the machine into idle
- ADVANCED VIBRATION DAMPENING SYSTEM and NEW modified cam design provides enhanced operator comfort even with extended run times
- INTEGRATED REAR SWIVEL WHEEL provides turning ease and locks in place for straight-line cutting
- KNOBBY TREAD DRIVE WHEELS grip the turf better and reduce dirt buildup
- 18" BLADE STANDARD. Optional blade assemblies include 12", 16", 20" or 24" (24" blade available for GX240 engine model only)

#### BEST SUITED FOR:

Landscapers and Turf Care Professionals

#### IDEAL LAWN SIZE:

Any

**2-YEAR  
WARRANTY\***

Model	HSC185E
Engine	Honda® GX160
Transmission	Hydrostatic, Hydro-Gear™ T2
Cutting width	18"
Cutting depth	Up to 2.5"
Cutting speed	1200 strokes per minute
Dimensions (HxWxL)	12" x 16"x 20"
Dimensions (handle folded)	38" x 24.5"x 52"
Dry weight	330 lbs

Model	HSC188E
Engine	Honda® GX240
Transmission	Hydrostatic, Hydro-Gear™ T2
Cutting width	18"
Cutting depth	Up to 2.5"
Cutting speed	1200 strokes per minute
Dimensions (HxWxL)	12" x 16"x 20" & 24"
Dimensions (handle folded)	38" x 24.5"x 55"
Dry weight	363 lbs

Easy-to-operate thanks to user-friendly controls and quick view how-to panel

DESCRIPTION	MODEL NUMBER
<b>SOD CUTTER ACCESSORIES</b>	
Swivel wheel kit (Fits all SC & SCHV sod cutters)	C900046
Blade conversion 18" TO 12"	C900014
Blade conversion 18" TO 16"	C900037
Blade conversion 18" TO 20"	C900007
Blade conversion 18" TO 24"	C900019
(ABOVE BLADE ACCESSORIES WILL ALL WORK ON THE GX240 ENGINE MODEL SOD CUTTERS, HOWEVER, C900019, BLADE CONVERSION 18" TO 24" IS NOT SUITABLE ON THE GX160 ENGINE MODEL SOD CUTTERS)	

## TURF RAKES HYDRO-DRIVE PRO TRS20

Dethatch large areas, hills and gradients easily with the PRO TRS20 Hydro-Drive Turf Rake featuring a productive and fatigue-free hydrostatic drive operation. For landscapers taking on a variety of projects, the PRO TRS20 converts to a turf seeder or vertical cutter in minutes.

Our PRO line offers productivity-enhancing features to help landscapers complete more projects quickly and increase profits. The PRO line's proven designs include the important extras, such as hydrostatic transmissions, anti-vibration grips and power steering.

### KEY BENEFITS

- VARIABLE SPEED from 0 to 3.4 mph for greater productivity
- 5-POSITION, SINGLE-ACTION HEIGHT ADJUSTMENT LEVER moves in 1/4" increments for optimal depth
- 28 HEAT-TREATED FLAIL BLADES with spacing of 11/16" standard, adjustable up to 1-3/8" for greater flexibility
- FOLD-DOWN HANDLE makes hauling and stowing simple
- HYDROSTATIC DRIVE TRANSMISSION makes for fast manoeuvring on hills and slopes by saving the operator from intense muscle-work
- WHEELS WITH SEALED BEARINGS withstand challenging conditions and semi-pneumatic tyres smoothly move the unit across the turf

Model	TRS-20HE
Engine	Honda® GX160
Transmission	Hydrostatic, Hydro-Gear® T2
Operating width	20"
Blade/reel type	Flail
Dimensions (HxWxL)	12" x 16" x 20" & 24"
Dimensions (handle folded)	38" x 24.5" x 55"
Dry weight	215 lbs

#### BEST SUITED FOR:

Landscapers and Turf Care Professionals

#### IDEAL LAWN SIZE:

Any

**2-YEAR  
WARRANTY\***

Engines are warrantied separately by manufacturer.  
\*See website for terms & conditions.

## TURF RAKES WALK BEHIND TR20

Dethatch your lawn or easily convert the TR20 into an overseeder or vertical slice aerator for additional projects. The TR20 turf rake is portable and compact for easy storage.

Model	TR-20HE
Engine	Honda® GX160
Operating width	20"
Blade/reel type	Flail
Dimensions (HxWxL)	40" x 27" x 44"
Dimensions (handle folded)	29.58" x 27" x 30.5"
Dry weight	135 lbs

### KEY BENEFITS

- 5-POSITION, SINGLE-ACTION HEIGHT ADJUSTMENT LEVER moves in 1/4" increments for optimal depth
- PROVIDES FLEXIBILITY by converting to a rake with catcher, turf seeder or vertical cutter in minutes
- CHOICE OF DOUBLE EDGED FLAIL BLADES OR SPRING TINE REEL for more gentle raking
- HEAVY-DUTY GREASABLE BEARINGS WITH CAST IRON HOUSINGS give added durability and easy maintenance
- SEALED BEARINGS IN WHEELS add durability while semi-pneumatic tyres provide better flotation on turf and easier manoeuvrability
- FOLD-DOWN HANDLE eases transportation and storage

**BEST SUITED FOR:**  
Homeowners and Landscapers  
**IDEAL LAWN SIZE:**  
Small to moderate

DESCRIPTION	MODEL NUMBER
<b>Turf Rakes Accessories</b>	
Metal seed box assembly	C900055
Flail blade assembly	C900003
Multi-purpose blade assembly	C900026
Slicing blade assembly	C900027
Spring tine reel assembly	C900045

(ABOVE REEL ACCESSORIES INCLUDE THE COMPLETE REEL ASSEMBLED, END PLATES, BEARINGS, PULLEY, KEY AND FASTENERS)

**2-YEAR  
WARRANTY\***

Engines are warrantied separately by manufacturer.  
\*See website for terms & conditions.

Since 1922 Little Wonder has been offering landscape and debris management equipment and now has more products than any other manufacturer in this category. They know how to use air power to move and collect debris better than anyone else.

As a professional landscaper or a dedicated DIY homeowner, you demand quality, convenience and durability. You put in long hours and expect your equipment to do the same. If your blower, vacuum and brushcutter can't perform the toughest of jobs—be it clearing, trimming, hauling and/or dumping—they are not worth your time or investment.

Little Wonder understand completely and engineer their powerful equipment to stand up to your needs, season after season.

***LITTLE  
WONDER®***

***Get Proven Results. Get Little Wonder.™***

## PRO EDGER

Designed to produce clean, crisp edges quickly and efficiently—up to 90° per minute—the Little Wonder Pro Edger outperforms all others in the category. This user-friendly unit features fingertip controls for fatigue-free operation and control, making it the edger of choice among landscapers.

### KEY BENEFITS

- 1 Largest available cast iron cutter head on the market.
- 2 10" steel blade is sharpened on all four sides for longer blade life.

<b>Model</b>	<b>6232-00-59</b>
Engine	Honda® GX120
Displacement	118 cc
Handles	Anti-vibration grips
Cast iron cutter head	Fixed
Drive belt	Dual belts
Edging depth	Up to 4"
Fuel capacity	2.8 ltr / 3 qts
Weight	31 kg / 69 lbs

**1-YEAR WARRANTY\***

Engines are warrantied separately by manufacturer.  
\*See website for terms & conditions.

## PRO VAC SI DEBRIS VACUUMS

The Pro Vac SI delivers the suction power to clear litter and debris faster. Serrated Steel Impeller Blade Technology with up to a 5:1 reduction ratio delivers superior suction and shredding capabilities in a compact footprint.

Keep your pace going with instant easy nozzle height adjustment from the operator's position. You'll get non-stop, efficient pavement-to-turf transition for faster cleaning up.

Throated nozzle design increases airspeed for improved vacuum capability. Unique rectangular discharge chute prevents debris clogs. The optimised 40-gallon, no-kick bag design prevents wear and tear.

The optional hose kit for cleaning out flower beds and hard to reach areas sits securely in a special contoured pocket that blocks air flow when not in use.

Available in push and self-propelled versions.

### KEY BENEFITS

- 1 Optimal sized hose with adjustable handle to get debris in tight areas.
- 2 5-blade, serrated steel impeller technology with up to 5:1 reduction ratio.
- 3 40-gallon, angled bottom bag with plastic bottom reduces wear and tear.
- 4 Lightweight and easy to manoeuvre on and off trailers/ vans.
- 5 Throated nozzle design engineered for superior suction power.

Pro Vac Si shown with optional hose kit

## PRO VAC DEBRIS VACUUMS

Be it bulky bottles, crushed cans, leaves, pine needles or pea-sized gravel, the Little Wonder Pro Vac doesn't discriminate.

Our industry-leading impeller housing design funnels airflow and debris of all sizes into our top-loading, 74.5-gallon capacity bag without loss of suction. So you can collect more debris per bag and spend less time emptying it.

The Pro Vac is excellent for residential cleanup, industrial applications, commercial sites and carparks and is available in push and self-propelled (shown).

### KEY BENEFITS

- 1 Arched padded handle allows users of any height to find a comfortable operating position.
- 2 Top-loading, 74.5-gal. capacity bag—twice that of the competition — can handle the big loads.
- 3 Sleek design and rugged front swivel wheels make turning and following curved pavements and driveways effortless (standard on self propelled).
- 4 Nozzle height automatically adjusts—there's no need to stop the engine to change settings to avoid 'scalping' and 'digging in' on rough terrain.
- 5 Low 40" unit height allows for clear visibility of job sites and a better view of the front nozzle area.
- 6 Powered to perform with a Hydro-Gear® T2 transmission and 9HP Honda® GX270 engine (Pro Vac SP only).
- 7 Heavy-duty treaded rear drive wheels provide excellent traction on both concrete and grass (Pro Vac SP only).

**2-YEAR WARRANTY\***

Engines are warrantied separately by manufacturer.  
\*See website for terms & conditions.

## OPTIMAX™ BLOWERS

Little Wonder Optimax™ maximum output blowers are perfect for moving leaves, debris and standing water — or for any job that requires hurricane-force air.

All models feature a split-stream air deflector, which minimises “blow-back”, and adjustable, ergonomic handles with anti-vibration grip for operator comfort.

Add a transport bracket for convenient tie-down and an industry-leading 5-year warranty, and you’ll see why Optimax is the only blower you need.

Available in a variety of push and self-propelled models (LB270H-SP shown).

### KEY BENEFITS

- 1 Powerful 7- or 9- blade fan and steel impeller produces high airflow while the scrolled housing allows uninterrupted air intake. Even if a portion of the housing is covered with leaves and debris, airflow can still enter the impeller area and be forced out the discharge chute.
- 2 Curved aerodynamic inlet draws air in smoothly for constant power and helps avoid clogging even if leaves are sucked in.
- 3 Strong, ergonomic adjustable handle with anti-vibration grip for added comfort.
- 4 Remote chute deflector control allows you to adjust the split-stream air deflector from the operator’s position.
- 5 Split-stream air deflector moves piles of leaves further and faster without blow-back. You’ll only have to go over the area once.
- 6 Integrated front/side discharge allows you to expel the air from the front of the unit or out the side without tools.
- 7 Optional swivel wheel kit, easy to install, for 360° turning and control. Wheel can also lock into a straight position. Minimises wear and tear on tyres.

1

2

Optional swivel wheel kit, easy to install, for 360° turning and control. Wheel can also lock into a straight position. Minimises wear and tear on tyres.

## MODELS AVAILABLE

Chain/pulley system controlled from the handle position to adjust the split-stream air deflector.

Model	LB270H / LB270H-SP
Product No.	9270-02-01 / 9270-12-01
Variable speed forward	0 - 4.1 mph (SP only)
Variable speed reverse	0 - 2.5 mph (SP only)
Transmission	Variable speed belt-powered chain drive, open centre differential (SP only)
Engine	Honda® GX270
Displacement	270 cc
Fuel capacity	5.3 ltr / 1.4 gallon
Impeller (diameter, type)	17", 7-blade steel, reverse angle
Discharge chute area	25.8 sq. in.
Air volume	2260 cfm
Air speed*	143 mph
Integrated front / side discharge	yes
Air flow control	Remote
Front tyres	10" pneumatic tyres with tube
Rear tyres	
Handle	Ergonomic 2-position adjustable; anti-vibration grip
Housing	Continuously-welded steel; 1 piece engine keck
Dimensions (H x W x L)	43" x 28" x 58"
Weight	64 kg / 142 lbs / 91 kg / 202 lbs

Model	LB390H / LB390H-SP
Product No.	9390-02-01 / 9390-12-01
Variable speed forward	0 - 4.1 mph (SP only)
Variable speed reverse	0 - 2.5 mph (SP only)
Transmission	Variable speed belt-powered chain drive, open centre differential (SP only)
Engine	Honda® GX390
Displacement	389 cc
Fuel capacity	6.0 ltr / 1.6 gallon
Impeller (diameter, type)	17", 7-blade steel, reverse angle
Discharge chute area	25.8 sq. in.
Air volume	2530 cfm
Air speed*	160 mph
Integrated front / side discharge	yes
Air flow control	Remote
Front tyres	10" pneumatic tyres with tube
Rear tyres	
Handle	Ergonomic 2-position adjustable; anti-vibration grip
Housing	Continuously-welded steel; 1 piece engine keck
Dimensions (H x W x L)	43" x 28" x 58"
Weight	76 kg / 168 lbs / 103 kg / 228 lbs

### SWIVEL WHEEL KIT 9050-00-01

## HYDRO BRUSHCUTTER

The Little Wonder Hydro Brushcutter navigates through weeds, heavy brush and overgrown vegetation with ease. Our tempered spring steel 26" blade cuts tall weeds, brush and saplings up to 2" thick.

Our welded steel frame design and engine positioning provide excellent balance regardless of the terrain.

And, unlike the competition, our hydrostatic transmission offers infinitely-variable, clutch-less speed selection—up to 4.2 mph forward and 1.7 mph reverse. So you can cut your own path at your own pace.

### KEY BENEFITS

- 1 Ergonomic control system with forward / reverse and blade engagement levers positioned at handle grips.
- 2 Solid rods connect the operator to the transmission, park brake and cutter blade clutch—no cables to break or adjust.
- 3 Single belt pulley system.
- 4 1" diameter mower blade spindle is supported by top and bottom sealed ball bearings inside a machined steel hub.
- 5 Tempered spring steel 26" blade cuts tall weeds, brush and saplings up to 2" thick.
- 6 Adjustable 1.5" wide, .25" plate steel skid shoes provide excellent flotation over rough terrain.
- 7 16" foam-filled no-flat, puncture-proof bar tread tyres for excellent traction and ground clearance on rough terrain.
- 8 7-, 10- and 12-gauge welded steel engine base, cutting deck, rear frame and control handle construction holds up to the toughest conditions.

**2-YEAR WARRANTY\***

Engines are warrantied separately by manufacturer.  
\*See website for terms & conditions.

Model	5126-22-59 HYDRO BRUSH CUTTER
Product description	Hydro BRC-26 Honda*
Engine	Honda® GXV390
Displacement	390 cc

## WARRANTY

A warranty is issued on all our garden machinery. This warranty covers faulty manufacture and materials of units which have been operated and maintained in accordance with the owner's instructions furnished with the unit and which have not been subject to misuse, abuse, neglect, accident, improper maintenance or alteration. Please see individual product pages for the length of warranty.

Annual servicing by an authorised Lawnflite specialist dealer will keep your equipment in top condition and ensure your machinery meets the Lawnflite two year warranty conditions.

Text and photographs, specifications of dimensions and performance are composed with the greatest care. The correctness of the information cannot be guaranteed, especially it is not guaranteed that the products comply with the images regarding colour, form and equipment or that the products comply with the proportion of the images. The engine horsepower information provided by the engine manufacturer is to be used for comparison purposes only.

Amendments due to misprints or errors are reserved. Please see the operator's manual and the warning labels posted on the item itself for more details. Subject to changes in prices.

Specifications and/or prices are subject to change without notice. Every effort is made to produce sales literature and price lists that are accurate and current.
